George,

I'm okay with you going up for this. We should chat for a few minutes about DOGGR stuff later today if possible. No TA needed as this is local travel. David

David, this is short notice because of my absence. I got a voicemail from Heidi pointing out this email below...

If ok, I would like to try to go tomorrow to attend via Amtrak.

I'll talk with you before responding to Heidi.

thanks

George

Hi George,

Just got your outgoing voicemail message that you're out until the 16th. Might you be available to come to Sacramento on December 18th for a meeting with Aera regarding UIC/CEQA? I was thinking 10am so that you could come on the train. Is this doable at all? If you're not checking emails at all and can't get back to me until the 16th, I understand. I will ask Aera and our UIC and CEQA staff to hold the date just in case. :o) Hope you have a great vacation!

Thank you very much,

Heidi McDonald
